**UNITED NATIONS DEVELOPMENT PROGRAMME
PARTNERSHIP WITH
HUMANITARIAN AFFAIRS UNITED KINGDOM**

It is my pleasure to commend for kind attention and support Humanitarian Affairs United Kingdom, for its outstanding contributions in nurturing emerging world leaders at its yearly University Scholars Leadership Symposium.

Humanitarian Affairs United Kingdom, is a remarkable civil society organization that has a fine record of engaging young people in volunteer humanitarian work, thereby providing creative avenues for young people to develop good citizenship and leadership skills while benefiting disadvantage communities.

The endeavors of Humanitarian Affairs are characterized by excellent management, innovative and yet practical approaches, as well as commitment to encouraging young people to develop a sense of global citizenship and responsiveness to those living in conditions of economics and social deprivation.

UNDP has worked with Humanitarian Affairs on numerous occasions over the course of several years. Each instance of partnership has reaffirmed that Humanitarian Affairs is a unique and vibrant organization that delivers on all its commitments. The partnership experience with Humanitarian Affairs and its team of dedicated professionals and young volunteers is refreshing and inspiring.

Humanitarian Affairs deserves every support for its worthy endeavors and in its organization of the **8th University Scholars Leadership Symposium**, to be held in United Nations, Bangkok – Thailand on August 1 to 7, 2017. UNDP is proud to co-host this Symposium with Humanitarian Affairs.
